

2000 – Problem/Project Identification Form

1. Name: Andrew Taylor Daytime Phone:__(206) 667-4431

This problem involves:

2. Neighborhood/District/Sector: Miller Park /East District_____

Repair or Rehabilitation of Existing Facilities/Infrastructure

3a. Is this project referenced in a neighborhood plan?
Yes No Uncertain (circle one)

3b. If 'yes,' which plan? _____

Installation of New Improvements

4. Neighborhood Plan Matrix # (if known): _____

5. What type of project is this? Parks ___ Transportation X Other ___

Safety Improvements

Problem/Project Description (you may attach one additional sheet):

The section of 19th Ave E. between E. Thomas Street and E. Aloha experiences rather fast traffic, due to the absence of 4-way stops.

Traffic (including school buses going to Meany Middle School) and pedestrians travelling on E. Republican experience great difficulty crossing 19th: there are frequent fender benders in the intersection. After discussion with Ms. Walgren we are proposing TWO curb bulbs on 19th Ave E. (on the S. side of the intersection) to slow traffic on 19th and to help vehicles and pedestrians cross 19th safely.

7. Problem/Project Location: 19th Ave E. at E. Republican

8. Please identify City staff you've worked with on this or a related project.

Shauna Walgren (SEATRAN)
